SKIP

APPLY

Job listings are viewed one at a time. Companies that pay for premium sponsorship will be shown earlier in the queue.

Employees will look at the high level information of each job posting and decide whether to apply or skip.

View User Activity

Sketch #3, User Profile - Activity Log:

Activity log #1

Activity log #2

Activity log #3

Given the nature of the interface, we understand that it might be possible for users to zig when they meant to zag. For that reason we track user actions in an activity log that they are able to go back and review from their user account / profile page at any time.

From here they should be able to re-view a job listing that they may have skipped, or view the application status of jobs applied to.

Additionally the user will have the ability to engage with direct messaging with the job poster.

Additionally the user will have the ability to engage with direct messaging with the job poster.

View Message Center

Messaging Center

From the parent Messaging Center, users will be able to send messages to other users similar to traditional email

Send Message

The 'Send Message' form is a rectangular box with a light gray border. Inside, there are five input fields stacked vertically: 'To', 'From', 'Date', 'Subject', and 'Content'. The 'Content' field is a larger text area. At the bottom left of the form is a red button with a left-pointing arrow and the text 'GO BACK'. At the bottom right is a green button with a right-pointing arrow and the text 'SEND'. The form is decorated with a red border on the left and top, and a green border on the right and bottom.
